A Bully Loaf Fable,

"With an application which every person should remember."

FROM THE WRITINGS OF A. E. SOP, Esq.

CHARACTERS:

THE FROGS—Inhabitants of a certain Island, great croakers, easily inflated, and as easily collapsed - - - - - THE PEOPLE.
JUPITER - - - - - MR. CARDWELL.
THE STORK - - - - - MR. BLARNEY.
MERCURY—Leader of a band of ignorant adventurers in political science—MR. SPEAKER.

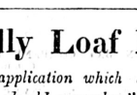

In the days of old, when Frogs were all at liberty in the lakes, and had grown quite weary of following every one his own devices, they assembled one day together, and with no little clamor petitioned Jupiter to give them a Governor who would develop their resources, keep them in better order, and make them lead honester lives. Jupiter knowing the vanity of their hearts, smiled at their request, and sent them a Stork, who no sooner arrived among them than he began laying hold of them, devouring them, one by one, as fast as he could—And it was in vain they endeavored to escape him. They then sent Mercury with a lightning message to Jupiter, beseeching him that he would take pity on them once more; but Jupiter knowing they had for a long time been consuming whiskies free of duty, replied that they were only suffering the punishment due to their folly, and that another time they would let well enough alone.

COLONIST AND CHRONICLE.

Monday Morning, June 25, 1866.

To the Public

The amalgamation of the BRITISH COLONIST and DAILY CHRONICLE newspapers renders it necessary that a statement of the causes that have led to the change, as well as an expression of the sentiments of the proprietors of the combined establishments, should be offered.

For some time past the most casual reader could not have failed to perceive that the existence of two papers as paying institutions had simply become a matter of impossibility; indeed, we but write the truth when we say that since the telegraph wire reached this city both papers have sunk a large amount of money for their owners; that their general efficiency was therefore fast becoming impaired, and that the public were losers thereby. In this condition of affairs it became necessary that steps should be taken to insure the public in the possession of at least one *good* newspaper instead of two fading ones, and a proposition for the purchase of the *Colonist* plant and good will was consequently entertained. The arrangements were completed on Saturday last, and the paper appears to-day under the sole proprietorship and control of the undersigned and Mr W. A. Harries,—a gentleman long favorably known to most Victorians in his position as senior member of the late firm of Harries & Co. Physically, our status has undergone a complete change; politically, our opinions are unaltered. We believe in a *conditional* Union of the Colonies; in the continuance of our Free Trade policy, with such modifications as the commercial community may from time to time deem proper; in Governmental Retrenchment and the removal of all officials whose services may be safely dispensed with; and in the appointment of one Governor over the the United Colonies with a lower salary and a smaller staff than is supported by either of the Colonies at present. In discussing the leading topics of the day we shall endeavor to be decided in tone without being personal, and to deal with questions on their merits without regard to the individual with whom they my originate. Our position shall be, as heretofore, independent. We shall be the servants of no man, party or clique, and our columns will be open to communications on all topics affecting the public welfare without regard to the political views expressed in them. In dealing with His Excellency's acts, we shall endeavor to treat him with the respect that is due to the high position he occupies; but we shall always criticise his official conduct freely. When we believe him to be in the right, we shall say so; and when we believe him to be in the wrong, he shall be told so in plain and unmistakeable terms. Both branches of the Legislature shall receive every consideration at our hands. Both exist by constitutional right; each exerts a wholesome check on the other; and although the powers possessed are capable of abuse, we are persuaded that, with our present system of Government and Union imminent, it would be unwise to do away with either branch. As heretofore, we shall endeavor to furnish the latest news at whatever cost but in order to meet the telegraph bills we are compelled to raise the weekly rate of subscription to thirty-seven and a-half cents—a rate which we feel sure will not be deemed exorbitant when our readers bear in mind the enormous expense attendant upon laying before them at their breakfast-hour the latest news from all parts. With only one paper in the field the Telegraph Company, in order to meet its own expenses, has fixed the rate for telegrams at a figure corresponding with that formerly paid by both papers. It therefore becomes necessary that we should ask the public to bear a portion of the loss, and we feel sure, from past experience, that we shall not meet with a refusal. In other respects there will be no change in our rates. All we ask is a fair return for our labor.

Having thus briefly stated our position and intentions, we beg to return our thanks to the patrons who have extended to us through the CHRONICLE a generous support, and to assure them that no effort will be left untried, and neither enterprise nor expense spared to make the COLONIST AND CHRONICLE a *newspaper* worthy the support and confidence of the people of both Colonies. HIGGINS & LONG.

Victoria, V. I., June 25, 1866.

The Address to the Throne.

The following is the text of the Address to the Throne, reported from the Committee of the whole House upon the "State of the Colony" and confirmed by the House on Friday last, standing orders having been suspended.

TO THE QUEEN'S MOST EXCELLENT MAJESTY,
Most Gracious Sovereign:

We, Your Majesty's most dutiful and loyal subjects the Commons House of Assembly of Vancouver Island in Parliament assembled, in full assurance of Your Majesty's earnest desire to promote the welfare of your people, beg leave humbly to address ourselves to Your Majesty upon matters of the deepest interest to your faithful subjects in this Colony.

We humbly represent that, desirous of reaching the foot of the Throne before the recess of Parliament, we transmitted by telegraph on the 20th June to Your Majesty's Principal Secretary of State for the Colonies, a few brief resolutions on the condition of this Colony, which His Excellency Governor Kennedy declined to transmit, unless approved by the Legislative Council, urging immediate union of Vancouver Island and British Columbia under a liberal Constitution, and we would now respectfully submit, for the consideration of Your Most Gracious Majesty, the following more detailed views on the same subject.

We would, in the first place, state that both Vancouver Island and British Columbia are at present suffering grievously from a variety of evils, some of which are the inevitable results of circumstances incident to new Colonies; others arising from the continued separation of Vancouver Island and British Columbia, by which a system of legislation has been adopted in the Legislative Council of the latter colony hostile alike to Imperial and Vancouver Island interests; and others, again, flowing from the unnecessarily expensive and highly impracticable systems of government of both Colonies, which, while oppressing the people with an insupportable burthen, have, at the same time, prevented the passage of liberal and necessary laws to promote the settlement and development of the country. The first of these evils are of such a nature, as will gradually effect their own cure, but the second and third are entirely under the control of Your Majesty's Government, and it is with the earnest hope that Your Most Gracious Majesty will be pleased to grant such relief as in Your Majesty's judgment may be deemed expedient, that we humbly pray:

1st—For immediate Legislative Union of Vancouver Island and British Columbia—countries which we believe were only placed temporarily under different Governments through Imperial expediency. The interests of the Island and the mainland have always been, and are, regarded as identical; not merely from the fact of these communities trading with each other and owning allegiance to the same authority, but also from their being dependent on each other in the most absolute sense. From 1858 population and capital have been gradually centering in Vancouver Island, and it is from these two elements, principally, that the mineral resources of British Columbia have been and are being developed. It is from Vancouver Island, mainly, the capital flows that brings to light the hidden wealth of Cariboo and other gold-fields; it is from the same source the majority of the mining population of British Columbia, who reside in Vancouver Island the greater portion of the year, is obtained. It will thus be seen that Vancouver Island's interest in the mainland is more than an ordinary interest, and that what affects the prosperity of the latter colony, whether it be the enormous expenses of its Government or the ill judged and unpopular character of its laws, acts in a corresponding degree on the former. How deep the interest is which British Columbia feels in Vancouver Island will be best ascertained by a perusal of the petition for Union forwarded some time ago by the Administrator of the Government of British Columbia to Your Majesty—signed, as it was, by all the principal merchants, manufacturers, miners, traders and farmers in the neighboring colony.

2nd. We would further state that while the combined population of both colonies, exclusive of Indians, who contribute in some degree to the Revenue, does not exceed 10,000 persons, the expenditure of the two Governments amounts, in the aggregate, to nearly £200,000a year. It is scarcely necessary to point out to Your Majesty, the unparalleled and ruinous character of the taxation required to support such an outlay, and the absolute necessity for a form of Government that will bear more lightly on the inhabitants, and afford them more effective means to check extravagance. In British Columbia, as Your Majesty's government is aware, the Government is carried on by a Legislative Council consisting of ten official, and five unofficial members. The system virtually stifles public sentiment, as, from causes which are inseparable from an overwhelming official influence in a Legislative Chamber in a young country, the usefulness as well as independence of the non-official members is seriously impaired. Salaries are raised and expenses incurred under such a state of things that could never be done under a more liberal and responsible form of Government. The Constitution of Vancouver Island is free from some of the evils which exist in the Constitution of the neighboring colony, but the unduly official and Nominative character of the Upper House has created serious dissatisfaction throughout the colony, the members acting in direct antagonism to the Assembly, and throwing out, session after session, measures which the public interest loudly and persistently demands. By such determined hostility to the Lower House, as this irresponsible body has evinced, and the refusal of the Governor to grant necessary information on matters affecting the vital interests of the colony, the welfare of the country has been deeply injured and the Legislative Assembly reduced almost to a nullity. We would, therefore, pray, that in uniting the two colonies Your Majesty's Government will be graciously pleased to grant to the people such a Constitution, as will, while reserving to the Crown every prerogative consistent with representative Government, enable them to control the manner and amount of the taxation and expenditure, and, if necessary, prevent the official element acting to the country's detriment by hostility to the people and their representatives. As one portion of the great expenditure above stated, we would humbly represent that the salary of the Governor of British Columbia was raised by the Legislative Council of that colony, to Four Thousand Pounds a year, and one thousand per annum are allowed for travelling expenses. The salary of the Governor of Vancouve Island is Three Thousand Pounds. For each, at great expense, a house is maintained and each has a Private Secretary. With a view to laying down the ground work of economy in the Government of the country, we would respectfully submit for Your Majesty's consideration the following Civil List, for the united colonies, an amount as great as with the present serious liabilities and the ever recurring need for internal improvements in both colonies, can, we believe for some years hence be afforded:

Governor	£2,000
Two Judges	2,400
Colonial Secretary	600
Surveyor General	500
Collector of Customs	600
Attorney General, with permission to practice	400
Treasurer	500
Total	£7,000

It would, however, be extremely difficult to construct and sustain an economical and useful Government, after the two colonies shall have been united, unless they shall be presided over by a Governor, not in any way interested in the continuance of a system which has grown up during the past years of improvidence and disregard of popular rights, possessed of large experience in the affairs of colonies enjoying Representative Institutions, and one whose cordial co-operation with the people's representatives might be relied on; for it has been found impossible to effect any very perceptible retrenchment under existing circumstances.

We would express our belief that, with Representative Institutions and an economical Government suited to their financial ability, the colonies will, after Union, advance in a steady and sure course of prosperity. Their progress would be greatly promoted by the opening of communication from the Pacific to the fertile plains and auriferous streams of the Saskatchewan country east of the Rocky Mountains. This has, already to a considerable extent, been effected by governmental and private enterprise, and a further advance eastward will probably soon be made; but, as part of the projected highway between the Atlantic and Pacific, this undertaking from its important bearing on Imperial interests, may yet claim aid from Your Majesty's Government.

Another measure, which would greatly benefit the united colonies, is steam communication with Panama, and connection at that port with the West India Steamship Company's line from England to Aspinwall. This we are informed will be furnished by the above named Company, provided they are guaranteed annually £20,000, or eight per cent. on the amount of capital deemed necessary for the undertaking.

Such a connection would greatly foster British interests, as well as British sentiment in this part of the world, besides paving the way for greater undertakings of the kind in future, having in view connection between Confederated British North America and the rich and populous countries on the Asiatic shores of the Pacific.

Referring with pride to the great, and, for the small number of tax payers, unprecedented efforts heretofore made by both colonies; in self-support and internal improvements, We profoundly regret that it will be out of our power to procure the vast advantage of the Steam Communication above mentioned, unless Your Most Gracious Majesty's Government should be pleased to extend a helping hand to these young and struggling colonies, believing, as we do, that if it assumes one-half the expense, the Mother country will reap its full share of the benefit.

Without connection with the Mother country by means of Mail Steamers, the progress of these Colonies is greatly retarded; and so deeply is this felt by the people, that large sums are now paid to a foreign steamboat company by each colony to keep up connection with California, although the compensating advantages arising from this outlay cannot be compared with those that would result from subsidizing a British line of steamers between Panama and these colonies.

With faith in the mineral and other numerous resources of British Columbia and Vancouver Island, which are gradually being developed under great difficulties, and feeling the most unbounded confidence in the Maternal Solicitude of Your Most Gracious Majesty for the wellbeing of all your loyal subjects, we believe that the present appeal for such institutions and other reasonable aid as will conduce essentially to the welfare and happiness of the United Colonies, will not be made in vain.

And we, Your Majesty's loyal and devoted subjects, as in duty bound, will ever pray:

PURGATION AND INVIGORATION.—By means o *Bristol's Sugar Coated Pills*, these two processes are made one and inseparable, and this cannot be said of any other cathartic in existence. For this reason they are decidedly the most successful alterative medicine ever prescribed for paralysis, palsy, nervous weakness general debility, and vertigo or dizziness These complaints are always in some degree connected, either as effects or causes, with a morbid condition of the stomach, the liver, or the intestines. Upon these organs the Pills act with a directness, promptitude, and curative power that are simply astonishing, while at the same time they communicate vigor to the whole organization. *Bristol's Sarsaparilla*, indubitably the most remarkable of all agents for renewing the vitality of the blood, is indispensable in such cases. The Pills are put up in glass vials, and will keep in any climate. Both medicines are sold by all prominent Druggists. *

Interesting Trial of a Suspected Smuggler before a United States Court.

Attempt to Compromise the Sir James Douglas.

On Saturday evening the Sir James Douglas left this port for Bellingham Bay, W. T., with several English Coal miners aboard, who had been engaged to work at the mines there. Among the passengers was W. Lyons, of the New Zealand House. The usual precautions to prevent liquors being smuggled were taken by Capt. Clarke, but a search failed to disclose any contraband packages. Arrived at Bellingham Bay, the American Custom officer, W. E. Barnard, Esq., after the landing of the furniture and effects of the miners left the steamer, and later in the evening returned and informed Capt. Clarke that he had been informed that some smuggled liquors were on board, a search was made by the mate, who discovered three or four packages of liquors in the forehold. The steamer left early the next morning for Port Angelos, where Lyons was taken into custody as a smuggler. A report of the proceedings before the U. S. Commissioner has been kindly furnished by N. Jacob, Esq., who was present, and watched the case on behalf of the Government of this Colony.

U. S. COMMISSIONER'S COURT.

[Before W. E. Conklin, Commissioner, and D. C. Brown, Deputy Marshal.]

June 23rd, 1866.

W. Lyons was arraigned on a charge of attempting to smuggle liquors into a United States Port. Mr W. E. Barnard acted as prosecutor, and Mr John W. Bagley appeared for the defence. The first witness called was:

Capt. James Clarke—On Thursday night Mr Lyons came to me for a passage to Bellingham Bay, and asked the fare there and back; he said that he would make money if I would carry liquors across; if I would allow him, or words to that effect. I told him there was only one way of doing that, which was by legitimate means; this is all that occurred on this occasion.

Examined by Mr Barnard—Did you tell the prisoner what you meant by legitimate means. I did; and in reply he said he would not take them. The liquor found on board was not there with my knowledge, or that of my crew, as I believe; they were not entered at the Custom House on my leaving Victoria yesterday morning. On our way to Port Angelos I was informed by the Engineer that he thought it his duty to acquaint me that he suspected spirits being brought into the ship. I inquired of the crew, I mean that portion of the crew on deck, not the firemen; they informed me that there was nothing of the kind on board the ship to their knowledge. I also visited the lower deck and found nothing; nothing further occurred until last night, when after Mr Barnard had left the ship, having wished me good bye, we were then at Bellingham Bay, this is the port we were destined for.

Mr Barnard informed me that smuggled liquors or spirits were on board; I turned up all hands immediately, everybody, and inquired if any of them knew anything about it; they all denied it most emphatically; I then sent the chief officer of the ship to search the lower deck and right forward, as far forward as you could possibly get under some rope, oakum, and other stores, was found a demijohn filled with spirits; about half an hour after this, when Mr Barnard suggested where that came from there must be more; I sent the chief officer again to lift a small hatch in the lower deck; this hatch is in the fore part of the lower deck, and he found three tins, of about 5 gallons each, 2 of which we punched holes in, and found they contained spirits; the third we did not touch, but concluded it contained the same as the others; had them put back again in the same place; agreed with Mr Barnard and Mr Neale, the chief officer, to keep watch in the forehold of the ship; I was one of the watch, warned all the crew to remain in bed, as I was going to watch, and saw every one into bed about half past ten; the prisoner was not on board when the liquor was discovered; he left the ship after dinner, between six and eight o'clock; I don't know of his being on board subsequent to this. After all hands were sent to bed, between half-past eleven and twelve I heard Mr Lyons' voice with others; I could see but could not be seen; I only heard one person on the deck. Immediately the foot touched the deck, a man jumped out of bed and ran up the forecastle ladder; I tried to stop him by calling out, in an under tone, he either did not hear me or would not pay attention to me; I did not call out the man's name, as I did not know who it was, his back was turned to me, but as he returned about a minute after I saw it was Henry Wafford, the fireman; I think Mr Lyons was moving and going aft; I presume it was Mr Lyons; I will swear it was Mr Lyons' voice; I can't say if Mr Lyons remained on board all night after this; I heard somebody on board between one and two o'clock; I should think there were two, I heard voices, their voices were suppressed; I heard footsteps, they were very light; I saw the reflection of a dark lantern or lamp; I should think it was on the wharf; I know the business of the prisoner, he is a drinking saloon keeper, he keeps the Great Eastern, it is a public house; I know of a package of champagne being brought on board by Lyons, not belonging to the ship, it was a box; Mr Lyons treated all hands on board; they were bought of the steward; the champagne was stated to be for the use of the people going in her; Lyons stated he expected Mr Backus and a large party were going; the champagne was to treat them; Remember when you, Mr Barnard, left the hold; after leaving the hold I went into the cabin and saw the prisoner there.

Cross-examined—I recognised Mr Lyons' voice; I was below him; I could not see any one; I believe that the champagne was brought on board to treat with; the voices were of a suspicious character; there ought not to have been anybody moving about the ship at that hour of the night; I saw a light; the lantern did not belong to the ship.

Charles Moss—I was on board the ship all night, after eight o'clock; I know the prisoner; I have heard the testimony given by Captain Clarke; the prisoner came on board about half-past eleven; he came to take away what few things he had; he came to me and asked me if I would sell him a bottle of brandy; I told him no, it was against the rules, and I would not; he said he was going to take his things ashore; he said he was thinking to stay at Bellingham Bay a few weeks, it might be a month, even three months; he said he had arranged with the head boss there to open a boarding house; he asked me to call and tell his wife he would not be home for some time; he left the ship; I understanding he was going to take up his residence at Bellingham Bay; I was surprised to see him in the cabin this morning; I woke him up this morning and asked him why he did not stay ashore; he said he had some other business to attend to; half-an-hour after we came in from Nanaimo he came to me and said he could put me in the way of making some money; I said I did not want to enter into anything of the sort; he told me that a steward was allowed 10 gallons of each kind of liquors; I said I did not care if he was allowed 50; I declined, and said I would not get myself into any difficulty; he asked me what I would take to let him go in my place; I told him Capt. Clarke would not allow it; there was something said about what could be made; we could make a good thing out of it; the money was to be made by smuggling these 10 gallon kegs of liquors; I have known Lyons 2 or 3 years; I have been steward of other ships on and off; I have seen Mr Lyons on board previously; I saw him yesterday forenoon in the forecastle; he went as a passenger, and had his meals in the cabin; I had reason to believe that smuggled goods were on board; I saw a man take something down the forecastle the night before, it was something out of a case; one of the men was Wafford; I could not tell the height of the other man, he was stooping down; Wafford is a man of family, when in port he does not sleep on board.

Examined by Commissioner—It is not usual for packages to be passed down the forecastle at that time of night; the other man was not one of the crew; I know it because of his hat.

Cross-examined—I don't know what state the prisoner was in when he came on board the ship for the brandy, I don't believe he was drunk; they were taking something out of a case down the forecastle; I don't know what it was.

Re-examined—I was in bed when he came on board at half-past 11 to fetch his things; I was not awake many minutes after this; the defendant did not appear drunk.

George Neale—Half-an-hour after the liquors had been found last night I was talking on deck with the Engineer and Steward on the poop, when I heard a man come down the wharf and jump on board; I hailed him and asked him who he was, he made no reply, I then walked forward and saw him forward of the windlass, I asked him what he wanted, he said that he had come to look for a coat that one of the men, I presume he meant the passengers, had left behind him, he then passed on, went round by the foremast, and then on to the wharf, with no coat; he did'nt find anything; he was looking out for it on the forecastle; I don't know who the man was, he was a perfect stranger to me; I asked Foord, the fireman, a man whom I thought there was the most faith to be placed in, if he had seen any one as he came down the wharf; he said yes, he had seen a man lurking round the coal cars, whom he supposed to be an Indian, and took no notice of him; he also told me in conversation, that on Thursday night, between 12 and 1 o'clock, when he went on board, the light in the forecastle was out, and he had to light it before he could get to bed; Mr Foord is one of the firemen; the light ought to have been burning; this statement is made in conjunction with that of Capt. Clarke; I can also confirm that one of the voices I heard last night about half-past 11 was the voice of the prisoner; I retired to bed about half-past three, and found the prisoner asleep in a blanket in the cabin; I have seen the prisoner now and then aboard the boat.

Cross-examined—On a previous occasion, coming from Nanaimo, prisoner was in the forecastle; I am under the belief he had slept there.

Henry Wafford—I don't know any thing about this matter I don't know any thing more than a child unborn about the liquor; I know I am on my oath; I know what the consequences of perjury are; I know the prisoner; I have no acquaintance at Bellingham Bay; I am aware that smuggled goods were found on board the Sir James Douglas; I know where they were found; I saw them taken up; I was on board the steamer Sir Jas. Douglas twice the evening previous to her leaving Victoria, once a little before nine, and again at half-past nine; I was alone; I went down for some hog wash; I didn't take it; I went straight home; I told my wife I wanted some tobacco, as I should not have time to get it in the morning as we were going away so early; I took my clean blankets in a towel; as I went down I saw Moss coming off the wharf; the first time I came down was for the swill, I didn't take it away; I walked round the block with a neighbor; the block runs down Wharf street to Government street; I never drink liquor; I remember the captain giving instructions for no one to leave his berth; I went on deck to make water; I saw you (Mr. B.) on deck; I didn't hear any noise about the ship; I have been to Lyons' house one or two times; he is a liquor dealer; he has been to Nanaimo with us; he was in the forecastle yesterday morning; I was there; the forecastle is always unlocked; any one could go down and put things on board; I was on board when a stoker was dismissed; he was sent away because he left the ship without orders from the captain; the captain made a regulation that one man should always remain on board; that regulation is still in force, the regulation has been broken contrary to the captain's orders and without his knowledge; I never knew all the men to be off; the first sight I had of the liquor was last night; I have not heard any of the men speaking about it; Mr. Evans, a next door neighbor of mine, was the person I was walking with; there was no person on board when I went on board; the night before we left for Bellingham Bay; Mr. Martin, one of the crew, came on board about nine o'clock; five minutes after, just before I left, I saw the engineer; the captain and mate had just jumped ashore; I was on board about a quarter of an hour altogether; the defendant was on board a little before nine; I went and spoke to him; he said he thought of taking a trip over to Bellingham Bay; he said he was going over to try and get a piece of land to set up a grog shanty, I didn't see him bring any packages on board; I know of Captain Clarke having made a search for smuggled goods on the way to Port Angelos and before he was boarded by the revenue officer; it was made on the passage over; about half-past nine was the latest hour I saw the steward; it was on the wharf; this was Thursday evening in Victoria.

James McCulloch...Have been engineer since the 26th December last; I have known the prisoner about two years, not as a friend, only by sight; never had any conversation with him as to business; I heard a portion of the conversation between the captain and the prisoner; he asked the captain the fare to Bellingham Bay; the captain said $8 would be a fair price; the prisoner said something about liquors; if he could take certain liquors in the ship; the price of passage, he said, was a very small consideration, as he could make $100; the captain said he must get a permit and have them passed through the custom house; the prisoner then dropped the matter.

Cross-examined...We were all conversing together; he didn't use the word smuggling; it was supposed there were a number of persons going by the ship; he may have meant them for them; I should think it was the intention of the prisoner to get the things through without passing them through the custom house; the subject then dropped; the prisoner stated that he had not thought about the custom house, or words to that effect; I know of liquors having been discovered on board; I knew nothing about the liquors until I saw them last night, and I did not know there was a trap-door in the forecastle boarding; I expressed to the captain on the way from Victoria to Port Angelos that I was suspicious that there were smuggled goods on board, the steward expressed his suspicions to us that he had seen things going down the forecastle of the ship the evening before; I don't know if it was clothing; he said he had been suspicious that things were going down that ought not to have gone down; he saw the things going down up to twelve o'clock; I did not state to the captain who I thought had put the things down; he (the steward) afterwards told me that Wafford was one of them.

Witness, recalled—I am certain that I saw Wafford with something in his hand; he took it from another and passed it down the forecastle.

Peter, an Indian, examined through an Interpreter, Nathaniel Clifford—I saw the cans brought up on deck to-day; I didn't know what was in them; I saw them down below before they were taken up on deck; all the men told me they were there; I mean the men that were working on board; I know Wafford; have seen him in Victoria; I don't know who put them on board the steamer; I was ashore at Bellingham Bay; I went to see a Clootchman; I didn't speak to Wafford there.

This closed the case for the prosecution. No evidence was called for the prisoner.

Mr. Barnard then summed up the case, stating that the evidence he had adduced before the court was sufficient to prove that smuggled liquors had been found on board the Sir James Douglas, and as this court and counsel on both side had agreed that the officers and crew of the ship had had nothing to do with secreting or placing the liquors on board, the court could but see from the evidence that all circumstances tended to show that the prisoner was the guilty party. He then went through the evidence, and asked the court to find the prisoner guilty.

Mr Bagley then addressed the Court in a lengthy, able and eloquent manner on behalf of the prisoner, stating that there was no evidence to show that the prisoner was the party, and asked the Court to dismiss the charge.

The Honorable Commissioner in delivering his verdict, said that he had given the evidence his best attention, and could but come to the conclusion that the evidence given on behalf of the prosecution was not sufficient to convict the prisoner, who must therefore be discharged, but he must say that that there was great suspicion against the prisoner. The trial commenced at half-past two o'clock and lasted until near ten.

Cricket Match.

A match between eleven players of H. M. S. Sutlej and Scout and eleven of the Victoria Club, took place at Colwood on Saturday, resulting in a victory in favor of the Fleet, after a sharp and exciting contest. The weather was propitious, and a large number of ladies and gentlemen from Victoria and Esquimalt were present on the ground including His Excellency the Governor and family, Admiral and Mrs Denman, the Hon. W. A. G. Young and Mrs Young, and several naval officers. By permission of the Admiral the splendid band of the Sutlej was present, and added materially to the enjoyment of the day. The Fleet won the toss, and sent their opponents to the wickets shortly after 11 o'clock. Messrs Powell and Wallace took the bats and commenced steadily, but the bowling of Messrs Thom and Ralph soon disposed of them. There was an evident want of practice shown by the Victorians in this innings, as they all succumbed to the really effective bowling on the other side, with a total of only 26 runs. The Navy fielded well. The Navy then went in and soon ran up a score of 43, being 17 in excess of their opponents. Macaulay and Levitt played well for 9 and 10, but the bowling of Richardson and Howard was too superior to admit of many runs being made, and the scores were consequently small. After partaking of lunch at Peatt's, the Victorians, nothing daunted, commenced their second innings with spirit, and succeeded at the close in placing to their credit 76 runs, leaving the navy a deficiency of 60 to make up. The batting of Clarke, Bacon and Powell was very creditable, the firstnamed gentleman while at the wickets received a severe cutover the left temple from a stinging ball delivered by Mr Thom, which stopped his play, and his wickets fell shortly after. The bowling of the navy in the second innings was not quite equal to the first. The Fleet in the second innings showed an evident determination to win the day if they could, and after some very careful play they succeeded in making the required number with a loss of only 8 wickets. The batting of Mr Saville in this innings was much admired. The excellent fielding and bowling throughout the match will account for the small scores made off the bat. Subjoined is the score:

SUDDEN DEATH.—We regret to announce that Mr C. E. Simpson, a young English gentleman formerly connected with the house of Messrs Henderson & Burnaby of this city, died suddenly of disease of the heart in London, about six weeks ago. Deceased was widely known and greatly respected in these Colonies,

THE MASONIC HALL.—The splendid hall on the second floor of Capt. Stamp's new building on Government street has been very handsomely and tastefully fitted up by the Masonic Fraternity of this city, and is now one of the most elegant lodges on the coast. The Masons will assemble to-day (St. Johns Day) in their old Lodge, on Langley street, and proceed at 2 p. m. to the Presbyterian Church on Pandora street, where service will be conducted and an address delivered by the Chaplain, the Rev. Thomas Somerville, M. A. A large and effective choir from the different churches in the city will be present, and will sing some sacred music under the leadership of bandmaster Haynes, for which considerable preparation has been made. At the conclusion of this service the Masons will repair to their new hall to inaugurate the same in due form and will dine together in the evening in the new room, Mons. Driard, of the Colonial Hotel, being the caterer for the occasion. On Saturday a handsome stone slab, surmounted by a scroll and bearing the words "Masonic Hall," was placed upon the cap of the building, giving the structure a more finished appearance. As several members of the House of Assembly will take part in the proceedings, we presume there will be no meeting of the House to-day.

THE BRITISH COLUMBIA COUNCIL.—A London paper in an article on the attempt made in these Colonies to effect retrenchment, thus speaks of the Legislature of the sister Colony: "The semi-irresponsible character of the legislative body rendered the work of retrenchment a most difficult one, and the passing of the estimates little more than a matter of form. So impressed with this fact was the government organ that it pronounced the voting supplies "a farce." This we would consider a very moderate term in this province, but the British Columbian oligarchs were ill-accustomed to hear criticism, and forthwith passed a vote of censure on the editor of the *Columbian* for daring to characterise their proceedings as a farce. This attempt to muzzle the press was very properly denounced by the heavily taxed people, and affords a good idea of the calibre of the men in power."

DISASTER TO THE SCHOONER "ALPHA."—About 1 o'clock yesterday morning, the schooner Alpha, bound for Nanaimo, with thirty tons of freight, ran on the rocks at Bayley's Point, ten miles from Victoria. Word was brought to town at 9 o'clock yesterday morning, and the steam-tug Diana, towing the schooner Meg Merrilies, proceeded to the point. The Alpha was high and dry—the tide being at its ebb. At high water the cargo of the distressed vessel was discharged into the Meg Merrilies, and a stout hawser having been made fast to the former she was drawn into her native element and was subsequently brought around to Victoria harbour. Her forefoot is gone, but the cargo is not damaged.

FROM NEW WESTMINSTER—The steamer Enterprise arrived on Saturday from the above port, bringing a few passengers and Dietz & Nelson's express. News from the sister Capital and the interior is meagre......At Yale the river rose on Tuesday and Wednesday, but fell on Thursday. The weather was pleasant and the roads in good condition. Business at Yale was not so brisk as it had been......There will be a grand volunteer parade at New Westminster on Coronation Day. The return cricket match between the Sparrowhawk and Westminster players was to take place on Saturday. The New Westminster Rifle Co., No. 1, have been challenged by the officers and men of H. M. S. Sparrowhawk to a trial of skill at the target.

THE DIFFERENTIAL DUTIES AND THE MAIL SUBSIDY.—It is reported that despatches have been received from the Colonial Office, by the British Columbian Government, disallowing the Differential Customs' Act, and taking the Council to task for its Direct Steam Subsidy. The first is pronounced an unjust measure, and the last is characterized as useless and extravagant.

APPOINTMENT.—In the London *Gazette* of April 21st, 1866, appears the appointment of Simeon Jacob, Esq., as Solicitor-General of Cape Colony, including British Kaffraria. The appointee is a brother of Mr N. Jacob of this city.

UNION RUMORS.—It is reported that a letter was received from London on Saturday which states that the Colonies will be united with Victoria as a Free Port and the Capital, and that a new Governor will be sent out.

MUTUAL LIFE INSURANCE COMPANY. — Mr Frank Tarbell, of this city, has received the appointment of agent for this well known life insurance company in Vancouver Island, British Columbia and Washington Territory.

FOURTH OF JULY—Celebrations will take place on the Fourth at Port Angelos and all the towns on the American side: At the last-named place Deputy U. S. Marshal J. C. Brown will, we understand, deliver an oration.

ENGLISH SHIPPING—The ship Mackay, Capt Hughes, sailed from Liverpool, April 6th, for Vancouver Island. On May 6th the ships Royal Tar, Capt Marks, and the ship Prince of Wales were loading at London for Victoria.

☞ The steamer Sierra Nevada left on Saturday evening, at 7 o'clock, for New Westminster, and will return to-morrow, leaving for San Francisco on the following day.

RUNAWAY—Two horses broke away together in harness from a buggy yesterday, and had a neck and neck gallop down Fort street and through Broad street to Bowman's stables.

NO NEWS.—The telegraph wires being down this side of Portland we have no telegraph report to present to our readers to-day.

WEEKLY COLONIST AND CHRONICLE.—Copies of this paper may be obtained to-day at the publication office or at any of the bookstores.

☞ The steamers Oriflamme and Montana, from San Francisco, reached Portland on Saturday night, at 9 o'clock.

☞ The steamer Fideliter reached Portland on Saturday.

THE "THAMES."—This steamship has safely arrived at Honolulu, S. I.

Big Bend.

CACHE CREEK, June 22—Mr Sellers, of Kamloops, has furnished a party to go prospecting in that vicinity. They will start to-morrow. Lavean and Duprat have gone to their silver lead to obtain more specimens for assay, and anticipate a favorable result. Mr Keay's party have returned and brought back some gold, but they are rather dissatisfied with their labor. Mr Willoughby has returned to Seymour from the mines, and has obtained some very good prospects in his shaft, and intends returning as soon as he gets a supply of provisions. Anderson and Hunt are sinking a shaft 4x6 feet, below the turn on French Creek, and entertain great hopes of success......There are about 15 paying claims on McCulloch's Creek. The prospects are not so favorable as on French Creek. Provisions stand about the same as last reported......It was rumored that Moberly had left with a party for the purpose of prospecting Moberly Creek......Perry, the mountaineer, was at Kirby's preparing to start across the mountains to find a suitable pass for the anticipated road from Canada, and also to prospect the country on his route......The steamer Forty-Nine had made another trip, and brought some cattle, potatoes, flour and bacon, but no passengers......While the steamer Marten was on her way to Seymour, a fireman belonging to the boat called Little Joe, fell overboard and was drowned. The steamboat was stopped and a boat lowered to render him assistance, but all efforts were unavailing, as he sank immediately......I have just been shown a prospect of fine looking gold that was taken from Jim Orr's claim.

Facts vs Theories.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease, Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr Maggiel, the finest materials known in the medical profession are obtainable by any one. His Bilious, Dyspeptic, and Diarrhœa Pills stand unrivalled, and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.* *

MURRAY & LANMAN'S FLORIDA WATER.—It may be fairly doubted whether

Their perfumed leaves on Eden's bed."

lent a purer fragrance to the atmosphere than fills the dressing-room or *boudoir* in which a flacon of this odoriferous toilet water has been opened. As compared with the fleeting scent of ordinary "essences" its perfume may be called imperishable, while it is the only article of its kind which vividly recalls the perfume of ungathered arom flowers. The volume of rich aroma diffused by a few drops upon the handkerchief is wonderful, and as a means of relieving faintness and headache, and of perfuming the breath and the person, when used diluted as a mouth wash or a cosmetic, it has no equal among imported toilet waters. ☞See that the names of "Murray & Lanman" are upon each wrapper, label and bottle; without this none is genuine.☜ For Sale by all respectable Druggists.

HOLLOWAY'S PILLS—Nervous Debility—Persons constitutionally weak are so much depressed by changeable weather that the ordinary offices of life become a labor, the necessity of thinking a toil. The nervous system is unhinged, and each day brings to such pitiable objects nothing but a succession of real or fancied miseries. To escape from such torments it is only necessary to take Holloway's Pills, which purify and strengthen a debillitated, shaken constitution more than any other medicine in the world. They cleanse the body from all impurities, gives tone to the stomach, regularity to the bowels, kidneys and bladder. They remove dejection of spirits and bodily lassitude, and restore to the mind decision and cheerfulness.

PHOTOGRAPHS!—Mr Dally's photographic gallery, Fort street, is now open to the public He has received by latest steamer, everything necessary to the successful carrying on of the art, and will guarantee to those who may patronize him pictures giving the utmost satisfaction. *

THE NEW BONNETS, just arrived at London House, are really the most beautiful we have yet seen: Both in design and price they are unsurpassed this season. *

Chlorodyne.

CHOLERA, DYSENTERY, DIARRHŒA, CRAMP, AGUE, FEVER, RHEUMATISM, CONSUMPTION, ASTHMA, COUGH, &c.

ALL PAIN, VOMITING AND DISTRESS ceases in a few minutes after taking a dose of that wonderful and SPECIFIC ANODYNE and ANTISPASMODIC remedy, CHLORODYNE, discovered by Dr. J. Collis Browne M.R.C.S. L., (ex-Army Medical Staff,) the recipe of which was confided solely to J. T. Davenport, 33 Great Russell street, Bloomsbury square, London (Pharmaceutical Chemist). The medical testimony of civil, hospital, military and naval practitioners pronounces it INVALUABLE. It relieves pain of any kind, soothes the restlessness of fever, and imparts the most refreshing sleep, without producing or leaving any of the unpleasant effects of opium.

Earl RUSSELL has graciously favored J. T. Davenport with the following extract of a despatch from Mr. Webb, H. B. M.'s Consul at Manilla, dated Sept. 17, 1864:—"The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr. Burke I have saved several lives." Earl Russell communicated to the College of Physicians that he had received a despatch from Her Majesty's Consul at Manilla, to the effect that cholera had been raging fearfully, and that the ONLY remedy of any service was CHLORODYNE.—See "Lancet," December 31, 1864.

From W. Vesalius Pettigrew, M.D., Hon. F.R.C.S., England, formerly Lecturer upon Anatomy and Physiology at St. George's School of Medicine: "I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am most perfectly satisfied with the results."

Dr. Gibbon, Army Medical Staff, Calcutta: "Two doses completely cured me of Diarrhœa."

Extract from the General Board of Health London, as to its efficacy in Cholera.

"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery." To it I fairly owe my restoration to health after eighteen months severe suffering, and when all other medicines had failed."

CAUTION.—In consequence of the extraordinary efficacy of this remedy, several unprincipled parties have been induced to vend imitations. Never be tempted to buy Chlorodyne except in sealed bottles, having the words, "Dr. J. Collis Browne's Chlorodyne" engraved on the wrapper. A sheet full of medical testimonials accompanies each bottle. Sole manufacturer, J. T. DAVENPORT, 33 Great Russell street, Bloomsbury, London. Sold in bottles, 2s. 9d. and 4s. 6d. ju24 1yw

CAPITAL, $10,000,000,

Fully subscribed by upwards of 700 Shareholders, whose personal liability is UNLIMITED.

INVESTED FUNDS, $3,000,000.

FIRE DEPARTMENT.

This Company grants Insurances against Fire on every description of property.

LIFE DEPARTMENT.

This Institution accepts proposals at the rates of premium applicable to Europe, which on examination will be found more advantageous than those charged by other Offices having Agencies here. It unites all the advantages of a Mutual Association with the security of a Proprietary Company. The Participation Branch is conducted by the Proprietors of the Company for a charge of 10 per cent. on the premiums, without any other deduction whatever. Thus the assured enjoy the profit WITHOUT THE LIABILITY of the Mutual System.

The participation in profits has been most liberal. Should claims arise before the next investigation, a prospective bonus of nearly 1½ per cent. is allotted.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures it heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

In this class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy, Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which, frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from piles and similar complaints when they might be Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetos	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Coco-bay,	Glandular	Tumours,
Chiego-foot,	ings,	Ulcers,
Chilblains,	Lumbago,	Wounds
Chapped Hands,	Piles,	Yaws,
Corns, (Soft)	Rheumatism,
